Dear Tenants:

Pursuant to Health and Safety Code sections 18603 and or 18871.8 mobile home parks are required to create an emergency preparedness plan. The plan for your park is located in the manager's office and or residency. Please see the manager if you have questions.

It is the intent of the Legislature that an owner or operator of a mobile home park or manufactured home community communicate to residents essential evacuation routes and basic emergency preparedness information in a manner appropriate to the community. It is not the intent of the Legislature that an owner or operator be responsible for physically evacuating residents from their homes during an emergency. It is further the intent that residents take personal responsibility for themselves during an emergency.
